NOTICE TO COMPLY WITH REQUIREMENTS			INING				
NUCLEOTIDE SEQUENCE AND/OR AMINO ACID SEQUENCE DISCLOSURES							
Applicant must file the items indicated below within the time period set the Office action to which the Notice is attached to avoid abandonment under 35 U.S.C. § 133 (extensions of time may be obtained under the provisions of 37 CFR 1.136(a)).							
The nucleotide and/or amino acid sequence disclosure contained in this application does not comply with the requirements for such a disclosure as set forth in 37 C.F.R. 1.821 - 1.825 for the following reason(s):							
1. This application clearly fails to comply with the requirements of 37 C.F.R. 1.821-1.825. Applicant's attention is directed to the final rulemaking notice published at 55 FR 18230 (May 1, 1990), and 1114 OG 29 (May 15, 1990). If the effective filing date is on or after July 1, 1998, see the final rulemaking notice published at 63 FR 29620 (June 1, 1998) and 1211 OG 82 (June 23, 1998).							
<ul> <li>2. This application does not contain, as a separate part of the disclosure on paper copy, a "Sequence Listing" as required by 37 C.F.R. 1.821(c).</li> </ul>

Continuation of 1(c) Other: The amendment to the specification received 19 July 2006 inserted SEQ ID NOs. to representations of nucleotides found on page 78 of the disclosure. A review of the disclosure finds but one Sequence Listing having been filed, and that was on 14 January 2000, and contained representations of 816 sequences. The amendment of 19 July 2006 introduces SEQ ID NO. 819-822, yet, for reasons indicated above, there does not appear to be such an entry in the Sequence Listing. In the absence of evidence to the contrary, applicant needs to comply with the attached Notice to Comply with Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures."
